# ACRYLIC DESK BLOCKS

---

Our acrylic desk blocks give the photo a three dimensional look. They are perfect for desks, bookshelves, mantlepieces, bed side tables - any horizontal surface.

The photo is printed on professional grade metallic photographic paper, using archival inks. It is then mounted on the back of an acrylic (plexiglass) block. It is finished with diamond polishing, buffing and final hand polish.

They are free standing, so no hanging system is required. These are a very popular option for gifts, farewell presents or if you need a small lightweight option to travel with. Acrylic desk blocks come in a box ready to gift.

We can customise our acrylic desk with a company logo (for a min order volume of 20 blocks).
