

## About us

Welcome to Freezy Paws, an Australian manufacturer that specializes in "SUPERPREMIUM" Freeze-Dried Pet Treats. We have introduced the most advanced freeze-drying technology from major aerospace food developers in North America and Asia. Our family-owned factory is creating innovative and extremely nutritious pet treats, that are specially tailor-made for our Australian pets.

At Freezy Paws we adopt the small batch production system, it ensures that each batch of treat is of the highest quality and is retaining its original freshness - ***FREEZE THE BEST FOR LAST!***

We strongly believe that our pets deserve a nourished life, that's why here at Freezy Paws we are always creating top quality human-grade products.

Our main focus when crafting freeze-dried treats at Freezy Paws is to only use the highest quality ingredients that are 100% natural with no preservatives. All our products are meet the AAFCO requirements. HACCP and PrimeSafe Certified production facility.

Freeze-drying raw treats is literally THE BEST method in preserving pet treats safely with almost zero nutrient or mineral loss. Very little heat is needed to "sublimate" the liquid out of the food.

Freeze-dried raw treats are made in the same manner as high-tech astronaut food. The same impressive technology that makes palatable, lightweight, and shelf-stable meals for astronauts is also used to make freeze-dried pet food.

## BENEFITS OF FREEZE-DRIED PET TREATS

-  Preserves taste and nutritional value
-  High protein and natural balance ingredient
-  Minimum ingredients - know what is fed to pet with allergies
-  Easy to store (no refrigeration required) and long shelf life
-  Mess free, highly portable great for training anywhere anytime!
-  100% Pure Natural! No chemical, preservatives or additives
